SAMPLE TWEETS TO PROMOTE THE EVENT

- 1) **#Antibioticresistance** is a global public health threat. A challenge to communities, patients, health services, laboratories & policies. The 59th Colloquium of @ITMantwerp & Cambodian partners features the latest research on antibiotic resistance. **#Colloq18**
<https://www.antibiotic-resistance-2018.org>
- 2) During the 59th Colloquium of @ITMantwerp, experts from the Mekong region & elsewhere share findings on **#antibioticresistance**. Scientists, health professionals & policy makers will discuss how to translate research results into effective policy. **#Colloq18**
<https://www.antibiotic-resistance-2018.org>

- 3) The programme of the 59th @ITMantwerp Colloquium is based on @WHO's 5 pillars of #antibioticresistance control. Experts will also discuss how to tackle agricultural and livestock practices in a #OneHealth approach to limit the problem. #Colloq18 Check out <http://ow.ly/vTAH30mxBw3>
